## Kosher Products

We sail the culinary seas in search of new and exciting products. **How does this affect our kosher observant shoppers?** Because our products span the globe, you may spot kosher symbols that you do not recognize. Our Kosher list was compiled to help you easily identify the wide range of kosher certified products that we carry in our stores. At the end of the product list, we have included an index of kosher hechshers (symbols) found on Trader Joe's Products, so that you can become more familiar with the kosher certifier agencies that may not be from your neighborhood.

Please note that this list is not all-inclusive, but it's a pretty good overview of our national (not regional) kosher products. Since produce, bakery and dairy categories are regionally based, please be sure to check those sections in your neighborhood Trader Joe's store for even more kosher products (products in these sections vary by region in order to ensure the utmost freshness!). We try to keep this list as up to date and as accurate as possible, but we do introduce and discontinue products all the time, so keep your eyes open.
